

states\_set\_handler  
\_timing\_goal\_end

```
graph LR; A["states_set_handler  
_timing_goal_end"] --> B["states_get"]
```

A diagram showing a call from the function `states_set_handler` to the function `states_get`. The call is represented by a blue arrow pointing from the left box to the right box. The left box is shaded gray and contains the text `states_set_handler` and `_timing_goal_end`. The right box is white and contains the text `states_get`.

states\_get
